

**Community Health Review
NGO Information Collection**

At an NCOSS consultation on the NSW Health Community Health Review on the 1st September, participants requested that some information be collected electronically following the consultation.

This information will be included in NCOSS submission to the consultants undertaking the review.

Submissions to the consultants are due by 14th November (see <http://www.nswchr.net> for more information). In order to allow time to draft and seek feedback on the submission, it would be greatly appreciated if you could complete and return this form by Tuesday 30th September to Kristie@ncoss.org.au. Please feel free to call me on 02 9211 2599 ext 130 if you would like to discuss anything further. I anticipate circulating the draft submission in late October/early November in order to provide enough time for comments.

Important: For Peak bodies, Statewide services or membership based organisations, please answer these questions in relation to your organisation or service only (and not those of your members or other services within your organisation).

Also, please note that the review related to NSW Health Operated Community Health Services.

1. Name of your organisation and contact details for respondent:

2. Using the following table, please indicate which of the following community health streams:

- a) your organisation would consider itself to be an appropriate source of advice on
- b) your organisation currently has relationships/partnerships with (either at an area health service level or through central office)

Community health streams	Source of advice	Relationships at AHS level (identify which AHS/s)	Relationship at central office level
Aboriginal Health			
Aged & Extended Care			
Child & Family Health			
Community Nursing & Domiciliary Care			
Community Rehabilitation			
Counselling & Psychosocial Services			
Drug & Alcohol			
Health Promotion			
Hospital Demand Management			
Intake and Initial Assessment			
Mental Health			
Multicultural Health			
Multidisciplinary Chronic Disease Management			
Oral Health			
Palliative Care			
Physical Abuse and Neglect of Children			
Sexual Assault			

Community health streams	Source of advice	Relationships at AHS level (identify which AHS/s)	Relationship at central office level
Sexual Health			
Women's Health			
Youth Health			
Other (please specify)			

3. Where you have indicated a relationship with community health at either an area health service or central office level (above), could you please briefly describe the nature of this relationship

Text here...

4. Are there any example/s of a partnership between an NGO and NSW Health operated Community Health service/s that you would point to as a good example? Please describe.

Text here...

5. Are there any other comments you would like to make about partnerships or relationships between NGOs and NSW Health Community Health Services?

Text here...

6. Using the following table, please indicate any service gaps or areas across the community health streams, and any recommendations your organisation may have in relation to these gaps.

Whilst you can provide as much advice as you like, feel free to only concentrate on any areas relevant to your organisation. Please provide as much details and supporting evidence as possible.

Community health streams	Please describe any service gaps in as much detail as possible.	Please outline any recommendations relating to these gaps
Aboriginal Health		
Aged & Extended Care		
Child & Family Health
